## ICWP's Annual Meeting

September 29 – October 1, 2015

ICWP invites you to join us for our 2015 annual meeting in Little Rock Arkansas! We'll be staying downtown in the vibrant [River Market District](#), and our meeting will be held at the [Heifer International headquarters](#) - a LEED platinum certified building with many unique water and energy conservation features.

Join us for:

- a field tour of water resource projects;
- presentations from national water leaders and decision makers;
- information sharing during our Legislation and Policy, Water Data and Science, and Interstate Committee meetings; and,
- lively networking and professional development opportunities.

Hotel and meeting registration details, and a detailed agenda, will become available in early July.

**WE LOOK FORWARD TO SEEING YOU IN LITTLE ROCK!**
